1. Print off the accompanying page of bunting templates as many times as required and cut them out following the dotted lines.
2. Place the templates onto a piece of card and use a pencil or pen to trace around the edges and cut out the shapes.
3. Glue the templates face up onto your pieces of card and once the glue has dried punch a hole through the grey circles in each template.
4. Begin to feed the string through each of the holes, spreading out your bunting as evenly as possible.
5. Now you're ready to festoon your tent with colourful bunting wherever you decide to pitch camp. Never to be lost again!
