

How to make an

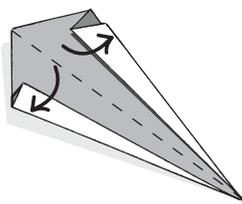

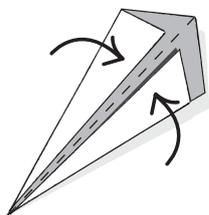

Origami Swan

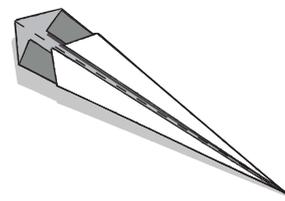

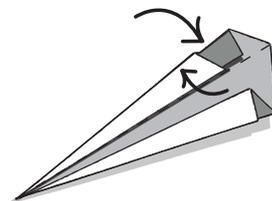

1. Start out with a square piece of paper, fold in half diagonally then unfold it.

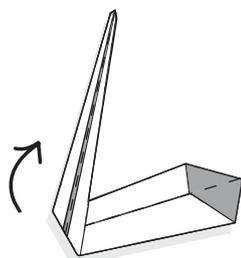

2. Fold the corners into the centre so it looks like a kite, then turn the paper over.

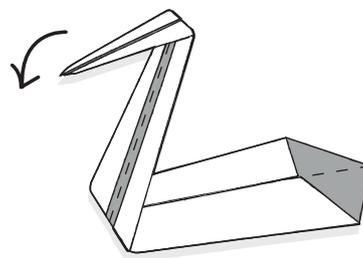

3. Fold the flaps into the centre line again, then fold back out toward the edges.

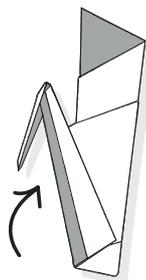

4. Repeat step 3 - Fold the flaps into the centre, and out toward the edge again.

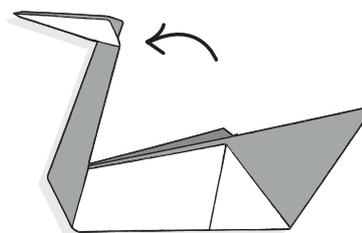

5. Fold the bottom of the 'kite' upwards, to make the swans neck.

6. Fold the tip of the neck down to make the swans head.

7. Fold the swan in half vertically.

8. Pull the neck of the swan away from the body.
