

# How to make

## Ice Cream Sundae

EVERYONE KNOWS THE BEST WAY TO COOL DOWN IN THE SUMMER HEAT IS LOTS OF FREEZING COLD ICE CREAM. SO RAID THE CUPBOARDS FOR SWEET TREATS AND FOLLOW OUR GUIDE TO MAKING THE BEST ICE CREAM SUNDAE YOU'VE EVER HAD!

## HERE'S WHAT YOU DO

1. Pick your perfect ice cream flavour. Choose one that is more on the plain side as you will be adding plenty of other tasty goodies!
2. Find a suitable serving dish for your sundae. Either an upright glass so you can stack your scoops, or a bowl so you can spread it around. Make sure it can fit in all of your toppings!
3. Grab an ice cream scoop and put 3 or 4 good sized dollops into your dish. Make it easier to get the ice cream out by placing your scoop in a cup of hot water for a while before using.
4. Now for the really fun bit. Start to add all of your favourite toppings, then drizzle and squirt your favourite sauces on top. The combinations are absolutely endless.
5. For that finishing flourish, add a squirt of whipped cream with a glazed cherry on top and some sprinkles. Now grab a spoon and get stuck in to your perfect sundae!
