

Make Your

Own Dinosaurs

MAKE YOUR OWN DINOSAURS WITH THESE COOL CUT OUTS - CREATE A CLASSIC T-REX, STEGOSAURUS OR TRICERATOPS. OR WHY NOT MIX AND MATCH THE BODY PARTS TO CREATE A WHOLE NEW SPECIES!

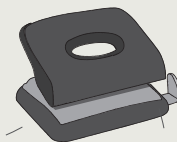

HERE'S WHAT YOU DO

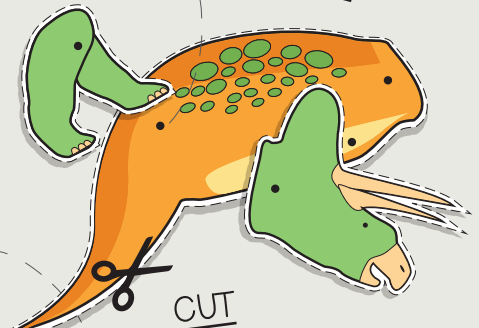

1. Print off the accompanying page of dinosaur templates as many times as required and cut them out following the dotted lines.
2. Place the templates onto a piece of card and use a pencil or pen to trace around the edges and cut out the shapes.
3. Glue the templates face up onto your pieces of card and once the glue has dried punch a hole through the black circles.
4. Create your own dinosaur designs and decorate them with glitter, coloured card, pens or paint - the more bright and colourful the better!
5. Arrange the legs, arms, head and body where you want, then simply match up the holes and use the paper fasteners to secure them together. Dino-tastic!

YOU'LL NEED:

- COLOURED CARD
- GLUE
- PAIR OF SCISSORS
- PAPER FASTENERS
- A GROWN UP TO HELP CUT ALONG THE DOTTED LINES
- COLOURED PENS, GLITTER & PAINT (TO PERSONALISE YOUR DINOSAURS)
- A HOLE PUNCH
